ADK QUAD-COUNTY DECENTRALIZATION ARTS EDUCATION GRANT PROGRAM

2019 Grant Application Guidelines

Deadline: Monday, October 22, 2018

HISTORY AND PURPOSE

The Decentralization Program was developed by the New York State Council on the Arts (NYSCA) in 1977 in response to a mandate by New York State's Legislature that there be greater local involvement in funding decisions affecting local non-profit organizations offering artistic or cultural services and programs. These funds have been administered by the Adirondack Lakes Center for the Arts (The Arts Center) in Blue Mountain Lake for Hamilton County. As of 2015, The Arts Center expanded its Decentralization Grant program to encompass Clinton, Essex and Franklin Counties as well as continuing to serve Hamilton County.

Please Note: Each applicant may submit only one application limited to requests for funding for no more than **three** separate projects. **Maximum** total request cannot exceed \$5,000. All projects must take place between January 1 and December 31, 2019.

ARTS EDUCATION GRANTS

FUNDING FOR IN-SCHOOL AND AFTER-SCHOOL AND COMMUNITY-BASED LEARNING PROJECTS

This grant is a local funding program that is administered by the Arts Center as part of the New York State Council on the Arts (NYSCA) Decentralization Program in four Northern New York counties: Clinton, Essex, Franklin, and Hamilton. It is supported by NYSCA's State and Local Partnership Program. This regrant program supports the role that local cultural organizations and/or individual professional artists play in engaging K-12 public school students and/or youth and adults in after-school and community settings in rich artistic learning experiences. AE funds serve to bring teaching artists and their classroom skills into dedicated learning environments for all ages through K-12 in-school projects and after-school and community-based learning settings.

Funds can support arts education projects that take place in K-12 school settings during the school day and/or in after-school and community-based settings for youth and/or senior learners. Emphasis is placed on the depth and quality of the creative process through which participants learn through or about the arts. Projects must focus on the exploration of art and the artistic process. In-school programs may incorporate inter-curricular collaboration and all projects must include sequential, skill-based study that incorporates one or more art forms and includes a minimum of 3 hands-on learning sessions. AE regrants will fund a **maximum** of 75% of the projects total cash expenses and should include costs for appropriate project evaluation and documentation. Grants may range from \$500 to \$5,000 (or a total of \$5,000 when combined with a DEC Community Arts Grant).

BASIC ELIGIBILITY

Arts Education funds support arts education projects in K-12 school settings during the school day as well as arts education projects that take place after school and community-based settings for youth and/or senior learners. Regrant funds are directed to cultural organizations and/or professional artists working in partnership with public schools as well as with individual teaching artists or arts organizations leading learning-based arts-projects following the criteria set in these guidelines for after school projects and adults. Projects must be focused on the exploration of art and the artistic process. Emphasis is placed on the depth and quality of the creative process through which participants learn through or about the art. For in-school projects, there must be at least one arts teacher -- whether visual, music, dance, drama, literary -- from the partnering school actively involved with the project in a hands-on teaching capacity. Inter-curricular collaboration is encouraged but not required. Professional artists applying directly for this funding must reside in the county being served, either Clinton, Essex, Franklin, or Hamilton. All applicants and professional artists must be 18 years of age at the time of application.

Professional Artists working in school systems in a different county from the one in which they reside must have a not-for-profit organizational sponsor in the county where the work will be executed.

Nonprofit organizations, independent artists, or unincorporated entities may apply.

A written letter of commitment from the school partner(s) to the arts organization or professional artist is required for in-school projects. The letter must outline in detail the partner support of the

project (monetarily and otherwise) and anticipated roles and responsibilities for each partner involved. The partnership letter should be on the partner(s) letterhead and signed by the principal and partnering art teacher.

A written letter of commitment from the community-based partner to the artist, arts organization or unincorporated entity must be included with the application in order to be eligible. The letter of commitment must outline in detail the partner(s) support of the project (monetarily and otherwise) and anticipated roles and responsibilities for each partner involved. The partnership letter should be on the partner(s) letterhead and signed by the director of the partner organization.

Recommended support materials for ALL Arts Education projects should include lesson plans, evaluation plan, video/photo work samples of past Arts Education work, participant evaluation forms, and letters of recommendation.
