

Prayer

REV. DR. SUSAN C. JOHNSON - NATIONAL BISHOP, ELCIC

Creator, our world produces enough food for all and yet millions go hungry.

You give us the knowledge and skills to grow crops, but natural disasters can wipe out whole growing seasons.

You connect us into a global community but wars, and supply chains, and greed stop food from getting where it should be.

You give to each of us generously, yet we hold onto our riches instead of helping those in need.

Open our hearts to freely share with others what has been shared with us.

Make the world a more just and fair place where all may be fed by your gracious bounty.

Amen.
