

**World Refugee Day**  
June 20th, 2023

### ***DID YOU KNOW?***

- Over 1% of the world's population – 103 million – are forcibly displaced people.
- Nearly half of them – over 42% – are children under the age of 18.
- 9 out of 10 refugees are hosted by neighbouring low- and middle-income countries.

On World Refugee Day, we remember forcibly displaced people around the globe, celebrate their strength and courage, and build empathy for their plight.

Please join us this week in praying for all those who have had to flee, and for all those who will offer welcome.
