## As You Have Helped Me

Joshi Samba, from India, has severe hemophilia A. He has been a part of the Save One Life sponsorship program for over ten years and has relied on these funds for his education. Joshi recently completed his MBA. He shares how the program helped him to reach goals he never dreamed possible.

Without the Save One Life sponsorship, I may not have been able to complete my education.

The Save One Life sponsorship facilitated me all the way from my 6th standard to a graduate degree.

I wanted to thank you for your generosity and for making it possible for people with disorders like me around the world to pursue their dreams of an education.

You are changing lives!

I did hope that one day I must be able to help people with hemophilia or any other blood disorder achieve their goals just as you have helped me.

Today I have a good job with a reasonable salary. Your generosity has inspired me to help others.

Please continue to provide such help to other deserving hemophilic patients, where it can make a difference in their lives.

Joshi earned his degree with the help of the Save One Life sponsorship program.

I urge you to sponsor more patients in the future.

Thank you so much,

Joshi Samba Shiva Vishal Sharma

**Save One Life commits to sending sponsorship funds to beneficiaries —  
even after they lose a sponsor.**

**1165** children sponsored through our Sponsorship Program  
**57** covered by the Save One Life Community Fund

Please consider sponsoring one of the 57 children available for sponsorship on our website, like Sarikka from India.

Sarikka has von Willebrand disease.

Let's find her a sponsor before her birthday on March 5.  
**Please sponsor Sarikka!**

A vertical advertisement for Alprolix. At the top, a man with long red hair and a beard, wearing a white t-shirt with 'ALPROLIX' on it and a white cap, stands with his arms outstretched. The background is dark with repeating text 'TREATMENT SIGNING DAY' and stars. Below the man, the text reads: 'DOING THINGS YOUR WAY STARTS RIGHT HERE, RIGHT NOW.' Underneath that is a yellow button with 'LET'S GO' in black. At the bottom is the Alprolix logo and text: 'ALPROLIX® [Coagulation Factor IX (Recombinant), Fc Fusion Protein]'. At the very bottom, in small text, is 'MAT-US-2110234-v1.0-11/2021'.

## WE NEED DONATED FACTOR

**75%** of hemophilia patients around the world  
still have little to no access to medication.

**Donated factor can provide that access.\***

**Reasons for donating can include:**

- switched brands
- changed dosage
- developed inhibitor

**Do you have factor to donate?**

Project SHARE donates factor to patients in developing countries. Our donations are used to save lives and limbs threatened by uncontrolled bleeding. Uriel, from the Philippines, has moderate hemophilia A and recently sent a thank you note for a SHARE donation.

Good day! You are helping me for my continued treatment, I sincerely appreciate your help. I wanted to thank you for helping me, it is a great help to me and my family. The Lord will take care of someone like you, you has a good heart. Thank you very much, God bless you even more.

Respectfully yours,

Uriel Jimenez

Email [share@saveonelife.net](mailto:share@saveonelife.net) to have your donation approved before you send. Thank you!

## Our New Look

The Save One Life logo has been updated as part of an overall brand refresh. Our goal was to maintain the iconic and recognizable logo associated with over two decades of serving the bleeding disorders community in developing countries.

We look forward to also sharing a redesigned website in the coming months!

**We thank our Corporate Sponsors for supporting our mission.**
