OneVoice

July 2020

Dear friends,

This issue is packed with great information! You might be tired of email, online meetings and more, but I hope you will take the time to read this edition of OneVoice.

If you are anything like me and crave community, please join us for the virtual Wheels for the World bike ride and/or visit Save One Life at HFA's virtual symposium in "booth" 114.

Last month we sent the first half of our 2020 distribution to all our beneficiaries. Many of Save One Life's beneficiaries and their families have *lost all their income* except for these sponsorship funds. We could not do this without your support so thank you!

Enjoy this OneVoice and please stay safe!

Chris Bombardier
Executive Director

A Virtual Event

September 2020

Ride with us September 1 - 15

We are excited to offer this fundraising event virtually and hope people from around the US and overseas will ride to support Save One Life's mission! *If you register before August 18, we will send you a custom Bike Box with items to support your ride.*

Wheels for the World started years ago when Barry Haarde inspired individuals with and without bleeding disorders by cycling across the country 6 times. Barry collectively raised over \$253,000 for Save One Life! Sadly, he passed away suddenly in 2018. This community ride recognizes Barry's contribution to the bleeding disorder community and

encourages healthy and active living.

Join us this September to ride inside or outside for a good cause. Invite family or friends to sponsor you or come along for the ride!

**Thank you CVS Specialty for being our premier Yellow Jersey Sponsor.

Thank You for Reducing the Impact of COVID-19 on our Beneficiaries

Last month Save One Life distributed \$227,000 to over 1,400 beneficiaries in 14 different countries, including Haiti for the first time!

Even though COVID-19 is making it very difficult to get the funds to each beneficiary, the 46 program partners we distributed to are working very hard to do just that.

Not only did we send sponsorship funds, Project SHARE shipped factor to those who needed it. So far this year SHARE has shipped over 4.2 million IU to 19 countries!

If you have unused or unwanted factor please email us to see if we can accept it. If we can, send it our way! There is always a high demand for hemophilia B products and bypassing agents.

SOBO 4 Save One Life Surpasses Goal

William Addison is an outdoor enthusiast, a soon-to-be Eagle Scout and has severe hemophilia A.

Will is in the process of hiking south bound (SOBO) on the Appalachian Trail. This national scenic trail starts at Mount Katahdin, Maine and extends almost 2,200 miles before ending at Springer Mountain, Georgia.

Will in Maine, late June

We are so grateful Will chose to raise awareness of and funds for Save One Life. His original goal was \$2,200. He quickly surpassed that and raised his goal to \$4,400. That goal was achieved too!

Will recently decided to increase his goal to \$11,000. Please join us in supporting his adventure!
