A Note of Thanks

13-year-old Steventz lives with his aunt and uncle.

Steventz lives in Haiti and has severe hemophilia A. He has been a part of the Save One Life sponsorship program for two years.

Steventz wrote a letter of thanks for the help the program has provided:

"I am not quite sure where I would be without this program. I felt very different from all the other children because of my hemophilia. I have often been in pain and suffering a lot, and sometimes the pain was so excruciating that I couldn't even walk. The pain from my hemophilia has caused me to miss many school days.

"Thanks to the Save One Life program, I can honestly say that I am doing much better.

"I can proudly say that I am the first kid in my area that has his own laptop thanks to Save One Life. I am very thankful, extremely grateful and happy.

"Only God can reward you for all that you and the program have done for me. May God continue to bless both you and your organization."

You can improve the quality of life and future for a person with a bleeding disorder in a developing country.

We have 132 children waiting for sponsorship.

Wheels for the World 2022 - Celebrating the Legacy of Barry Haarde

In June of 2012, Barry Haarde made history as the first person with hemophilia to cross the country on a bicycle. At the end of his ride, an elated Barry turned to Laurie Kelley and declared, “Let’s do this again next year!”

He would go on to ride 16,728 more miles and raise over \$250,000 for Save One Life.

NEHA Day

July 31

Providence, RI
Special guest- Emily Cobb,
sister of Barry Haarde.

Weekend Rides	August 14	Ipswich, MA Mountain bike ride— Chris Bombardier
