OneVoice

March 2020

Dear friends,

During this unprecedented time with COVID-19, the Save One Life team hopes you are caring for yourself - mentally and physically.

As tough as this is for us, the families we serve *already* live in challenging situations as they navigate living in poverty while having a chronic medical condition. This pandemic might exacerbate these challenges with potentially devastating consequences. Your support gives them hope and assurance that someone cares. They need you now more than ever.

Save One Life has taken measures to ensure staff safety and accommodate the new reality in our communities. Our office is working remotely, but you can reach us at contact@saveonelife.net and we will respond quickly.

I sincerely thank you. Remain safe.

Chris Bombardier
Executive Director

How You Can Help

At the moment we may all find ourselves nervous about finances, the health of our loved ones, the economy and more. COVID-19 is having a profound effect on the lives of our beneficiaries. Please find it in your heart to continue supporting our mission. There are many ways you can help!

- Continue your sponsorship of a child in need or sponsor another. Currently we have 50 children on saveonelife.net in need of a sponsor.
- If you, like so many others, are buying needed items from Amazon, use Amazon smile and select Save One Life. Follow [this link](#) and Amazon will make a donation to Save One Life!
- If you currently donate by check, go to the My Account section (upper right corner) of saveonelife.net and enter a payment method. With the current "Shelter in Place" restrictions in Massachusetts, the team is working remotely so it's difficult to process checks.
- Send us a video or picture of why you support Save One Life and we will post it!

Save One Life, our program partners, and our beneficiaries thank you for your past and continued support!

See half-life, clearance and other PK data from the crossover study comparing **Jivi®** and **Eloctate®**

Grand Canyon Challenge Postponed!

Because the safety and well-being of our hikers is important, we have postponed the challenge. **The new date is October 15-18, 2020.**

Our partner, iConquer, has assured us nothing will change from the previous itinerary and that October is a beautiful month at the Grand Canyon.

It's not too late to join us! The Grand Canyon is not about "man vs. nature!" It's about doing something *good* for yourself while doing something *great* for others!

[Visit here for details](#)

Sunday, July 12, 2020

The third annual Wheels for the World 2020 bike ride will start and end in Ipswich, MA. Save One life has partnered with Beverly Bikes, True North Ale Company and New England Hemophilia Association to bring you a fun event. All funds raised from the ride support the mission of Save One Life.

The first 10 people to register by April 15 will receive a 25% discount. Click below to read the history of the event, learn about the 2020 ride or to register.

We will monitor the situation with COVID-19 to see if scheduling changes need to be made.

Introducing Catalyst Leadership Initiative!

Meeting with the Rwanda Fraternity Against Haemophilia

Since 1996, Save One Life founder Laurie Kelley has been identifying and motivating hemophilia leaders worldwide. She helped develop national bleeding disorder organizations in twelve countries, most of which are now registered national member organizations (NMOs) of the World Federation of Hemophilia (WFH). She has also worked with established NMOs and their affiliates, to strengthen and support them, and to create new affiliates and chapters.

Now Laurie and Save One Life will implement the Catalyst Leadership Initiative together. The goal of building these organizations will be membership in Save One Life and WFH. As members, NMOs will be eligible for tremendous resources, support and training to both patients with bleeding disorders and medical staff.

Laurie took the first of three trips last month. Please read about her work in Rwanda by following the link below!

[Read about Rwanda](#)

The Catalyst Leadership Initiative is generously supported in 2020 by Bayer Health Care.

Bayer Health Care is committed to help bring change to individuals with hemophilia around the globe. Through their recent donation to WFH's Humanitarian Aid program and through the Catalyst Leadership Initiative, Bayer continues to show their commitment to the global bleeding disorder community.

Latest Program News

Project SHARE

Since January, SHARE has received over 2.1 million units of donated factor. In three months we have already shipped to 13 different countries!

SHARE is committed to shipping as much medicine to as many partners and organizations as we can. Our goal is to reach as many patients as possible who have little or no access to life-saving factor.

Welcome New Sponsors

Antal Basa
Charlie Burns
Heather and Jameson Case
Angela Ciraolo
Richard and Wendy Gatton (5!)
Shellye Horowitz
Cindy Komar (2!)
Rob and Marisol Limehouse (2!)
Owen Njoroge
Skye Peltier
Sierra Rich

This five year old from the Philippines is shown recovering from a brain bleed. A SHARE shipment was used to help him. Thank you for donating your unwanted factor. It truly can save a life!

Scholarship Program

Save One Life awarded three scholarships averaging \$850 each.

India:

Arya - Chartered Accountancy Certificate

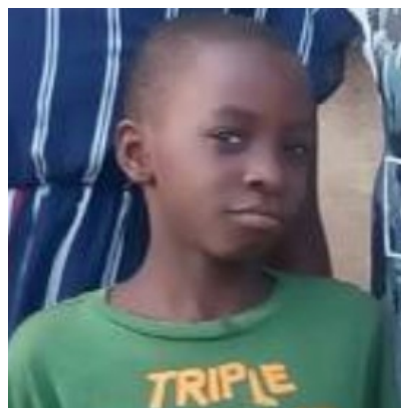

Romania:

Mihai - Electrical and Electronic Engineering Degree

Paul Sebastian - BA Footwear Design and Innovation

*This program generously supported by
Sanofi Genzyme.*

Child to Sponsor

Sponsor Taiwo for \$35/m

Meet Taiwo from Nigeria. He is 11 and has severe hemophilia A. Taiwo's favorite subject is math and he hopes to become a doctor someday.

Micro-Enterprise Grant Program

13 grants in Durgapur, Guwahati and Vijayawada, India were awarded since our last *OneVoice!* Grants averaged \$930.

Grants will be used to expand existing businesses of:

- bicycle repair shop
- mobile accessories store
- electrical shop
- vegetable stand

Other businesses that will benefit from a grant are:

- cybercafe
- door to door clothing sales business
- general store
- fast food restaurant
- new bicycle for a vegetable sales business
- handmade jewelry shop for a young female entrepreneur

The remaining grants will help start these brand new businesses:

- fruit and vegetable shop
- tiffin stand (light meals)
- pig farm

*This program generously supported by
Roche/Genentech.*
