A Note of Thanks

Phares attends his graduation.

Phares lives in Kenya and has severe hemophilia A. He has been a part of the Save One Life sponsorship program for over ten years.

Save One Life also granted Phares a scholarship so he could complete his degree. After his recent graduation, Phares shared this note of thanks:

"I am sincerely honored to have been a recipient of the Save One Life scholarship while studying at the Dedan Kimathi University of Technology, where I was pursuing a Bachelor's Degree in Information Technology. I want to thank you from the bottom of my heart for your generosity."

You can improve the quality of life and future for a person with a bleeding disorder in a developing country.

We have 123 children waiting for sponsorship.
Help us **spread the word** to get them sponsored, too!

Wheels for the World- Registration is Open

Join us on the 10th Anniversary of Wheels for the World

In June of 2012, Barry Haarde dipped his front wheel in the Pacific Ocean and spent 50 days riding 3,667 miles through ten states and Canada to make history as the first person with hemophilia to cross the country on a bicycle. While dipping his rear wheel in the Atlantic Ocean at Wallis Sands Beach to culminate his ride, an elated Barry turned to Laurie Kelley and declared, “Let’s do this again next year!”

He would go on to ride 16,728 more miles and raise over \$250,000 for Save One Life.
