Caring for families with hemophilia around the world — one at a time

[www.saveonelife.net](http://www.saveonelife.net)

May 2018

You know that we directly assist people with bleeding disorders in developing countries around the world, but you might not know that our sponsors and donors are international, too!

Of 560 sponsors in our sponsorship program, for example, 45 (8%) are from 14 countries. They live in Australia (our largest, with twelve sponsors), Canada, Denmark, Germany, Iceland, Israel, Italy, the Netherlands, New Zealand, the Philippines, Romania, Sweden, Switzerland and the United Kingdom (our second largest, with nine). All share the experience of living with a bleeding disorder. All care about touching the life of a person who shares the same experience, but in more difficult circumstances.

Our recent participation in the World Federation of Hemophilia's congress in Scotland strengthened our appreciation of our important mission, as many representatives from the patient organizations we work with came to thank us, our donors and our sponsors for the invaluable support we provide at the grassroots level—person to person, life to life.

All of us—sponsors, donors, program partners and beneficiaries—deserve to be proud of this unique organization that connects our worldwide community in such a personal way. Thank you for being a part of Save One Life!

## Save One Life at the HFA Symposium and WFH Congress

Save One Life's board member and mountaineer Chris Bombardier (left) with endurance cyclist Chris Seistrup at HFA's symposium.

Save One Life had opportunities to exhibit at the HFA Symposium in

Cleveland, OH and the WFH Congress in Glasgow, Scotland in April and May, respectively. We were happy to meet many sponsors and share our work with visitors at HFA, and to meet many program partners at WFH!

Our Europe development liaison (and volunteer) Marelle Hart with Megan Adediron (next to Marelle) and members of the Nigerian delegation.

## A Sponsor Visit to Kenya

Our new sponsor, Jon Freeman, visited the Jose Memorial Hemophilia Society where he spoke with our key contact, Sarah Mumbi, about hemophilia care and Save One Life's impact in Kenya. Together they ventured to the home of his new beneficiary, six-year-old Israel Kuria. Jon enjoyed meeting this sweet little boy and his family, and gifted them with a refrigerator to store factor for Israel's bleeds.

## A Positive Outcome for a Scholarship Graduate

"I am happy to inform you that I started my first job in a very big Indian multinational company as a junior executive in the audit and inspection department. I am located in their Guwahati regional office, which controls all the northeastern branches of the company.

This would never have been possible without the financial help of Save One Life. The scholarship I received helped me complete my master's in finance. My family and I will never forget your crucial support."

## Welcome Indore and Calicut chapters of Hemophilia Federation (India)

After two successful assessment visits by our India program coordinator, Usha Parthasarathy, we welcomed two more program partners in India. Calicut joins our program partners in Kunnampulam and Angamaly in the state of Kerala, and Indore is our first program partner located in the state of Madhya Pradesh. This brings our total of program partners to 48.

## Save the Date!

On **Sunday, August 12** we will mount our bikes to make a memorial trip from Odiome Point State Park in Rye, New Hampshire to Wallis Sands Beach (six miles away) where Barry completed his first historic ride across the United States in 2012. President Laurie Kelley will lead the pack and once arrived, riders will dip their bicycle wheels in the Atlantic in memory of Barry. Once back at Odiome Point we will enjoy educational presentations and a summer picnic.

*Don't miss this special occasion! More information to come in June!*
