

Paul

Dec 12, 1996

Hemophilia A, moderate

Save One Life continues to receive updates from our program partners on how Covid-19 has drastically affected our beneficiaries and their families. Many have been recalled from work temporarily and some salaries have been withheld entirely.

Paul's dad works as a court clerk. Covid-19 has forced the courts to close, and things are being done remotely. Since the court system has adopted a digital system, court clerks are no longer required for the manual system. His salary has been withheld, and his work even after Covid-19 is uncertain. It is has been a tough task providing for his family and caring for his two hemophiliac sons whose health is a priority. He could not be more thankful for the Sponsorship Program which goes a long way in supporting the needs of his family.

Without your support, Paul and his family would have no funds for basic necessities. The Sponsorship Program is Paul's safety net, especially during these tough times. Your funds help the family pay for food, medical expenses and other basic needs.

Many thanks for supporting Paul.

As a parent, the covid-19 has really affected me so much with my family even I cannot send my old mother a single cent to cater for her small needs at home in the village.
