

**SAVE ONE LIFE**

# 2019 Project SHARE Report

# What is Project SHARE?

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program that donates factor, a lifesaving blood-clotting medicine, to patients with bleeding disorders in developing countries, and to the hospitals and nonprofit organizations that support them.

Founded by Laurie Kelley in 2002 as a program of LA Kelley Communications, donations have: allowed students to return to school; attracted rural patients to urban clinics for treatment and education; supported life saving surgeries and physiotherapy; empowered patients and families to create hemophilia societies where none existed.

Project SHARE ensures that tens of millions of dollars worth of factor, which would otherwise be destroyed, reaches impoverished people with bleeding disorders. This factor comes mainly from US patients who switch products, and from hemophilia treatment centers (HTCs) and specialty pharmacies with excess inventory.

## A New Home with Save One Life

Transitioning Project SHARE to Save One Life in 2019 added value to our programs. This allowed us to support our beneficiaries in our current programs and created a new avenue of support for countries that aren't currently our partners.

# Summary of Donations

Category of Medicine	Total IU Shipped
FVIII	4,209,138
FIX	278,380
VWD	1,996,567
Inhibitor	692,374/204mg
<b>Total</b>	<b>7,176,459/204mg</b>

In 2019, Project SHARE:

- Shipped factor to 30 different countries
- Provided clotting factor for camps in the Dominican Republic, Philippines, Romania and Uganda
- Visited the Dominican Republic, Kenya, Uganda, India and the Philippines to review Save One Life programs and deliver factor donations

# Who did we help in 2019?

India	Philippines	Egypt
Fiji	Ethiopia	Dominican Republic
Haiti	St. Vincent and the Grenadines	Kenya
Rwanda	Honduras	Pakistan
Uganda	Morocco	Cambodia
Armenia	Jamaica	Bangladesh
Mozambique	Nicaragua	Ivory Coast
Cameroon	Romania	Venezuela
Maldives	St. Lucia	Yemen
Moldova	Afghanistan	Bahamas

# Our Impact

Edward, Kenya

Edward lives in Kenya and suffered a femur fracture and was not responding to treatment due to an inhibitor. The hospital contacted our program partner in Kenya for help. They were able to give the hospital medicine they had received from Project SHARE.

From our program partner; "This is just a snippet of the impact of Save One Life. The donations we receive from Save One Life are life-saving to the hemophilia community all over the country. We are forever thankful for your love and what you do for us."

Mohammed was suffering from untreated bleeds when his health care providers contacted Project SHARE for help. Shipping to the war-torn region was challenging, but with the help of many (including DHL), the medicine reached his caretakers.

Mohammed, Yemen

Thank you to our sponsors!
