

# Yunus

Sep 4, 2007

Hemophilia A, moderate

Save One Life continues to receive updates from our program partners on how Covid-19 has drastically affected our beneficiaries and their families. Many have been recalled from work temporarily and some salaries have been withheld entirely.

Yunus's dad typically earns money selling wares alongside the road in their town. The current situation with Covid-19 is causing people to stay at home, resulting in him earning as little as \$1 per day. He is now left without enough money to provide for his family of eight and is often deciding which meal is more 'important' and which can be skipped. He works hard but the current situation has made things hard for the family.

Without your support, Yunus and his family would have no funds for basic necessities. The Sponsorship Program is Yunus's safety net, especially during these tough times. Your funds help the family pay for food, medical expenses and other basic needs.

Many thanks for supporting Yunus.
