Covid'19
Response

impactnations
- rescuing lives

**You helped provide
over 137,200 meals.**
for people facing hunger through Covid'19

The Government of Uganda has now extended the lockdown for another 21 days.

This means more people are running out of food, and more suffering. We have geared up quickly to provide for more families for a longer period during the pandemic. We have provided a further 680 food packages providing 137,200 meals to feed 3,350 people in Katanga and Kosovo for the next three weeks. Your generosity is ensuring that the most vulnerable have food to survive COVID'19.

Lets show you your impact

Updated Impact in Katanga and Kosovo

KATANGA - 360 Families

This week **360** Families in Katanga have recieved enough food to feed them for the next 20 days

You helped feed more
1750 People

In total you have helped provide **70000** meals for people in Katanga.

4000 Kilograms of Corn Floor
1500 Killograms of Rice
3000 Kgs of Beans
300 Litres of Cooking oil

KOSOVO - 320 Families

More **320** Refugee Families in Kosovo have recieved enough food to feed them for the next 21 days during this 21 days lockdown

You helped feed approximately
1600 People

In total you have helped provide **67200** meals for people in Kosovo

4000 Kilograms of Corn Floor
1500 Killograms of Rice
3000 Kgs of Beans
300 Litres of Cooking oil

SECOND ROUND DISTRIBUTION

You provided 680 food packs to those who had ran out of food.

“Tonight’s dinner just changed from expired bread to plates with rice, beans, tomatoes, and soup that hasn’t sat on anyone else’s table or trash can.” ~ Zahara

3350 people are not just statistics, these are lives of people in the slums being touched and being given hope in these uncertain times.

We heard from our friend Zahara who was digging the trash scavenging bread crumbs for her kids. They were going to feed on that expired bread that day and the next day.

Because that was her only way to feed a family of 6.

No parent should have to dig through the trash to find her children something to eat.

Because of your help Zahara has enough food for the next three weeks.

In the midst of continued Lockdown, you've served 137,200 meals to those going hungry.

Families who couldn't afford to feed their families before coronavirus are in an even worse position now. And those who could afford food are no longer able to do so.

Some desperate parents are begging others to take their children to feed them. One family was feeding on wild weeds for 2 days, they boiled grass risking their lives because some weeds are poisonous to human

We are feeding families. We are on the ground, and we move fast. Each of our food packs can feed a family for a week and they are receiving 3 food tickets for three days

Over 680 families in the slums of Kosovo and Katanga are picking their food packs from our food points with their food tickets.

Annet 7 months pregnant survived on warm water for two days without food, now she has access to food for the next three weeks.

You Supported 3 Local Small Businesses

Your support is also supporting local business like Kanyankole's Retail shop. Kanyankole has been our agent for 5 years through feeding programs and this time through the pandemic he turned into a real blessing. He got us a huge deal on the food we were buying and thats why we are able to reach these numbers and families.

He mentioned to us the sales were going down dramatically asn he had stocked food but people werent buying as he expected.

Through this sale his business can make it through this pandemic steadily

Meet Hellen

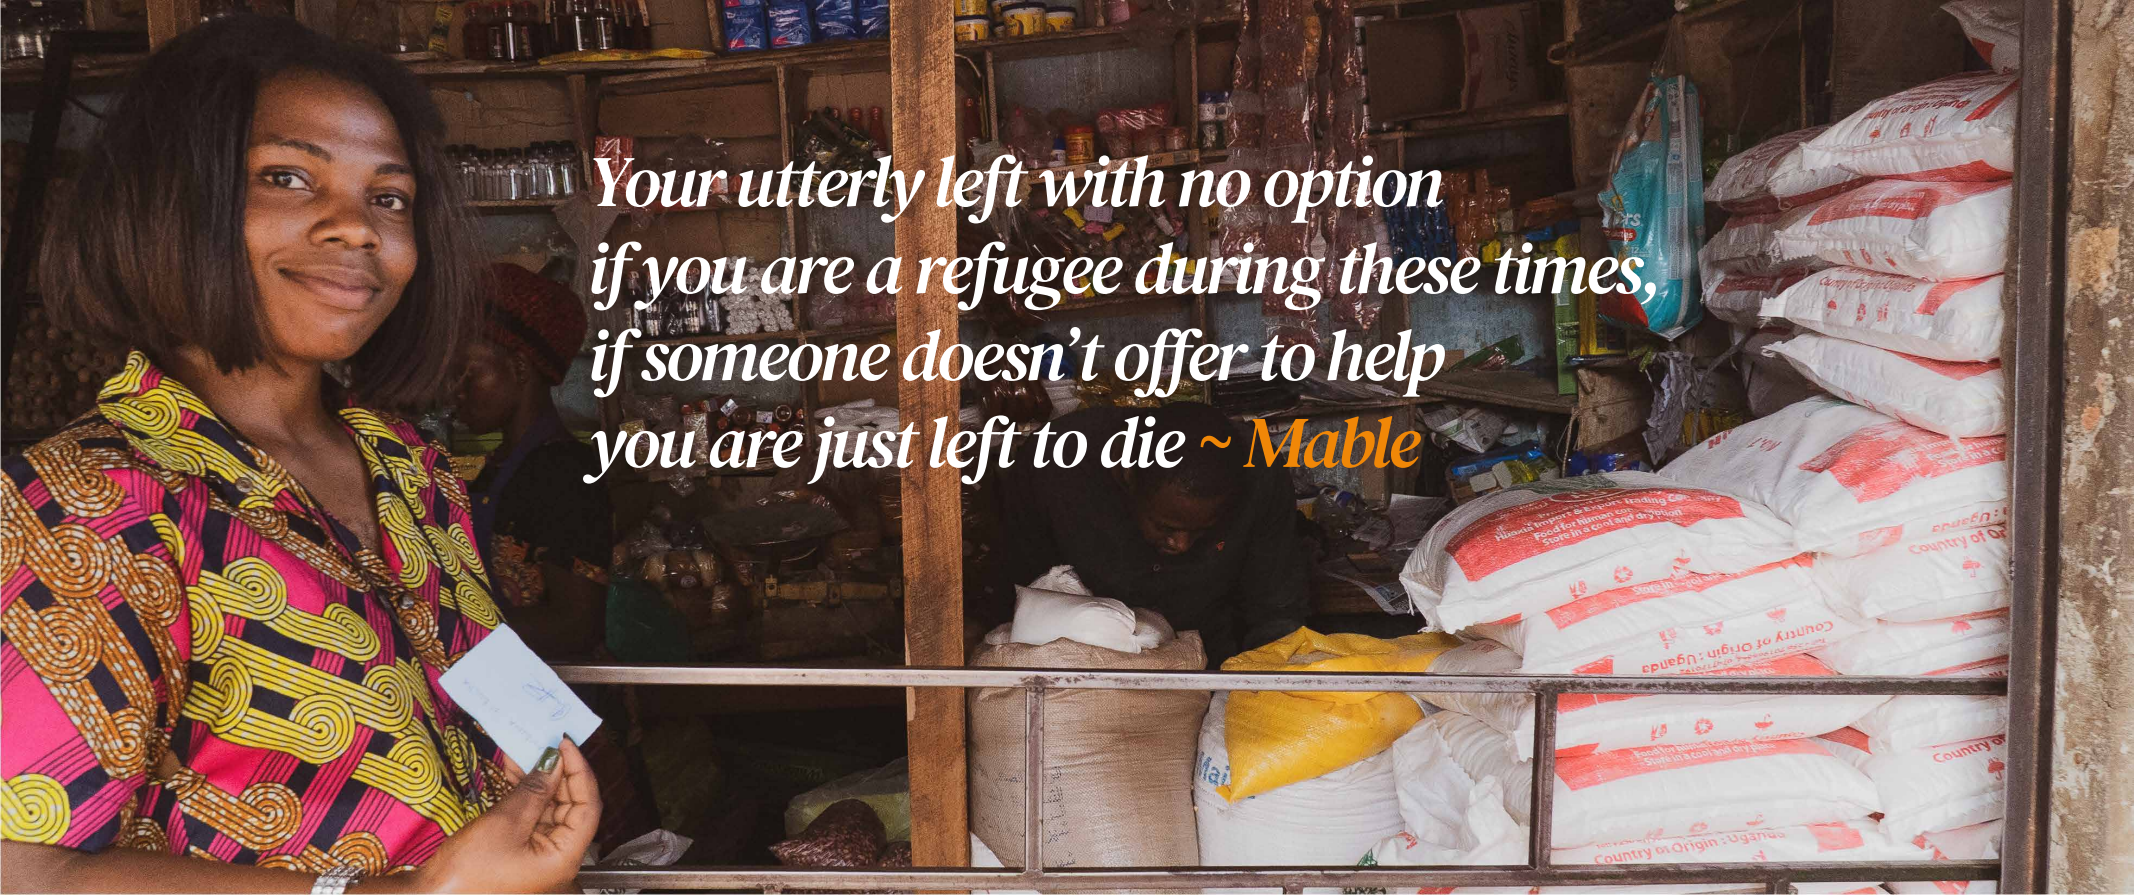

*“I don't think thank you is enough,
They gave us more than food, They
gave us Hope.”*

If you watched our first appeal for help during the lockdown you may remember a lady called Hellen, our contact person in the Katanga slum.

Hellen looks after 17 orphans, and we support her with the kids' education and with food. The situation was expected to get serious because the kids are now staying home from school because of COVID. Hellen was struggling after the Us4Women shop she runs in Katanga was closed because of COVID'19 and social distancing. She says this help went beyond having food.

She says it has given them hope to stand tall and strong through these uncertain times. Hellen has enough food to provide for the 17 orphans that she looks after for the next 21 days and she can't thank you enough on behalf of the thousands of people you have helped.

*Your utterly left with no option
if you are a refugee during these times,
if someone doesn't offer to help
you are just left to die ~ Mable*

Congolese refugees in Kosovo and other slums are suffering the most - They were just in the process of starting to adapt to a new life in Uganda Slums and then Covid Hit

Widows. Orphans. Grandparents. They were going without food, and had no idea when they might have their next meal. They are poor. They are quarantined in their homes by the police because of COVID-19. And they felt utterly abandoned by the world as they are not in their homeland.

These families live day-to-day at the best of times. Those who are able to work, mostly sell groceries. Others are hawkers. This is daily work—they get paid a little each day for their effort, just enough to feed their family that day, if times are good. These families never get the chance to save money, or to stock-up for hard times.

When we heard about these families starving, we asked for your help. You showed up, and donated enough to allow us to deliver food to 14,300 meals of the most vulnerable families in this community. Within a day, the food was purchased from our retailers and ready in shops for pickup—all in a way to protect both families and volunteers from contracting or spreading the deadly virus that is responsible for this community's lockdown.

Isaiah 58:10

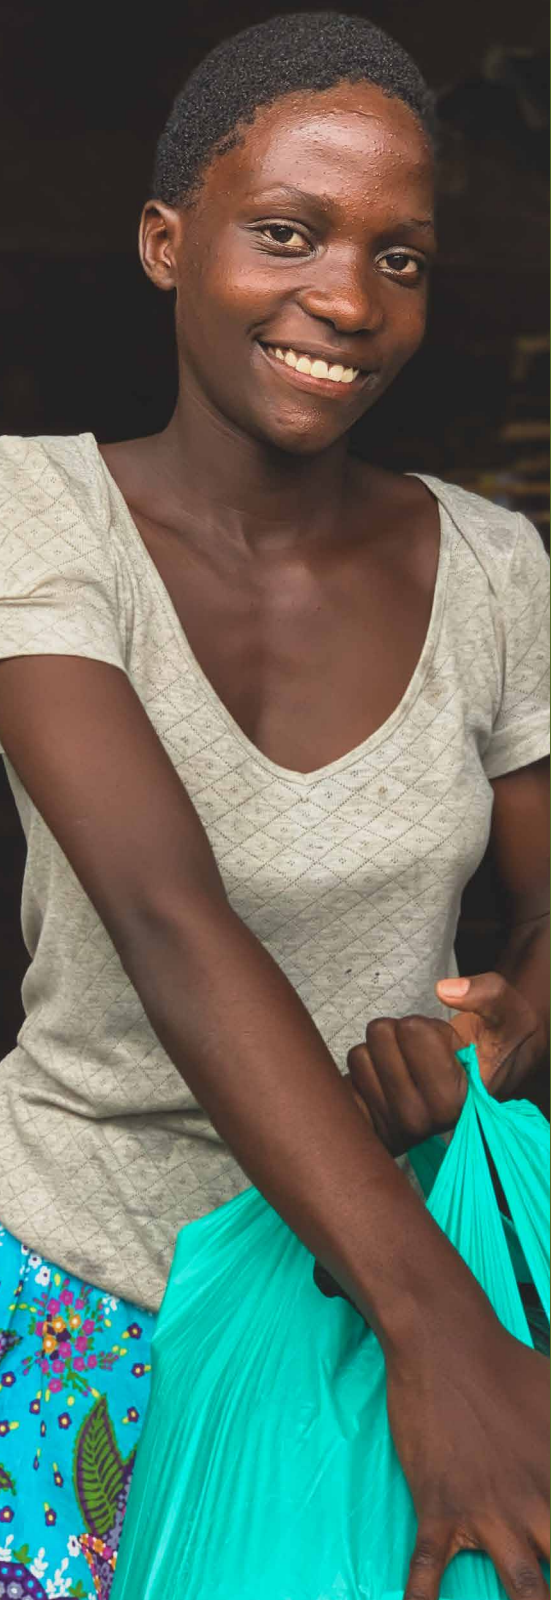

“ Feed the Hungry, and help those in trouble. Then your light will shine out from the Darkness, and the Darkness around you will be as bright as noon. ”

Impact Nations

Impact Nations has helped 92hands reach more families and provide more meals than any other domestic charitable organization. Your support is vital during the Covid'19 Pandemic, when thousands of families have lost their income and have ran out of food.

Conclusion

Your partnership makes it possible for children and families to keep themselves safe during covid'19 instead of worrying about where they will find their next meal. Thanks to your compassion, 92hands has the resources to offer the bright promise of a warm meal to many people in need.

We love hearing from you!

Do you have any questions? Do you have ideas for more ways we can work together to use what is in our hearts and hands to bring positive change to people in vulnerable communities

We want to fully understand your impact - your desired contribution you want to make in this world, so you can share your work with friends and family, and colleagues.

Please let us know how we can serve better together.
