From: Dr. William S. Browner, MD  
Medical Director, Hope Community Resources, Inc.  

To: Guardians of Supported Individuals of Hope Community Resources

Dear Guardians:

The supported individuals of Hope Community Resources, Inc. have been identified as being eligible for the Covid-19 vaccine by Pfizer. If one elects to receive the vaccine, Walgreen Pharmacy will administer the vaccine. Information provided by the maker of the vaccine, Pfizer-BioNTech, entitled “Fact Sheet For Recipients and Caregivers” will be provided through the link at www.cvdvaccine.com. Walgreen Pharmacy will also ask your response to about 5-6 brief questions. As medical director, I am also requesting that you make a brief call to the primary care provider, and ask if they:

1. Are aware of any underlying health condition which would contraindicate the administration.
2. Are they aware of any anaphylactic reactions in the health-history.

The purpose of you having the information from the fact sheet, from the primary care provider’s office, and answering the questions on the Walgreen form is assist you in making the decision about the administration of the Pfizer-BioNTec vaccine.

Thank you in advance for your cooperation.
