## AFTERSCHOOL IS KEY

Afterschool programs play a critical role in keeping kids healthy and active.

The majority of parents say their child's afterschool program supports healthy behaviors and among those parents, satisfaction is high.

Parents say their afterschool programs provide opportunities that help their children succeed.

Consistent participation in afterschool programs leads to improved:

Behavior

Academics

Attendance

AFTER SCHOOL PROGRAM INSPIRING RECREATION EXPERIENCES  
 A PROGRAM OF THE DISCOVERY CENTER  
 AT HOPE COMMUNITY RESOURCES INC.

# SPRING 2019

## OUR PROGRAM

The Discovery Center After-School Program “ASPIRE” is a recreational, skill based program that provides opportunities for skill acquisition, enrichment activities, and support for developing healthy relationships between children and teenagers with and without disabilities.

The “ASPIRE” After-School program is a structured program that targets various fine and gross motor skills, personal expression, communication, community involvement, socialization, daily life skills, continued education, and cooperative experience. The Discovery Center provides participants the assistance to follow their interests, find discoveries within themselves, and establish connections with peers in their community through recreational opportunities.

Providing our programs in a safe and engaging environment is our highest priority. Our program develops activities that are based in the community that retain, teach, and develop new skills. Our programming focuses on academic enrichment, physical fitness, nutrition, and life skills. Activities within our programs are developed to challenge children and make learning fun.

## OPEN HOURS

Monday to Friday: 3:00pm - 6:00pm

\*Opening Hours of school break days vary, check posted schedules for more information.
