About SMFM and the Foundation for SMFM

The Society for Maternal-Fetal Medicine (SMFM), based in Washington, DC, is dedicated to advancing optimal and equitable perinatal outcomes for all people who desire or experience pregnancy. The Society represents over 6,500 members and serves as the voice for clinicians and researchers with expertise in high-risk pregnancy care. Maternal-fetal medicine (MFM) subspecialist physicians comprise our core membership. SMFM members also include physicians in related disciplines, scientists, nurses, genetic counselors, ultrasound technicians, and other clinicians working toward optimal and equitable perinatal outcomes.

SMFM's Mission

As experts in maternal-fetal medicine, SMFM and its members lead the evidence-based practice of high-risk pregnancy care by providing education, promoting research, and engaging in advocacy.

Foundation for SMFM's Mission

Empower and support the SMFM members and their colleagues by creating mentored opportunities, developing innovative initiatives, and promoting evidence-based programs.

Corporate Council Objectives and Impact

Since its launch in 2008, the Corporate Council Program has brought together industry partners and SMFM leadership to advance shared goals in high-risk pregnancy care. Corporate Council membership is instrumental in funding the Foundation's scholarship and grant programs investing in maternal-fetal medicine subspecialists at every stage of their careers. **As a Corporate Council member, your organization will:**

→ Engage in strategic dialogue with SMFM leadership to shape the future of maternal-fetal medicine, including the Board of Directors, committee leaders, past Presidents, executive staff, and leading subject matter experts.

→ Have exclusive science-to-science meetings to share your clinical strategy, gather expert feedback, and build partnerships that amplify the impact of your work.

→ Contribute to solutions for the most pressing challenges in maternal-fetal medicine and provide direct feedback on major SMFM and Foundation for SMFM initiatives.

→ Collaborate on research and education initiatives that expand reach and amplify impact.
