2022 ANNUAL REPORT

Foundation
for SMFM

Our Mission

Empower and support the SMFM members and their colleagues by creating mentored opportunities, developing innovative initiatives, and promoting evidence-based programs.

Our Vision

Advancing equitable and optimal pregnancy care by fostering career development through research and education.

Message from the Chair

DEAR FRIENDS OF THE FOUNDATION FOR SMFM,

2022 was an exciting year that brought about many changes for the Foundation for SMFM. While we still held the SMFM Annual Meeting virtually, participation remained strong! Support of the Foundation for SMFM's efforts also continued to be generous. We and our awardees appreciate your kind support and loyalty to the next generation of MFMs! Thank you to all of you who give to, serve, and engage with the Foundation in so many ways throughout the year.

Despite a challenging year and continued uncertain times, over 400 Society members contributed to the Foundation for SMFM in 2022. ABOG again provided support for our Bridge Funding Award, and we continued to receive generous gifts from the family and friends of Dr. Dani Peress in support of MFM fellow research. Additionally, the Foundation received an unrestricted grant from Hologic, which has enabled the creation of the Foundation's new IMPACT Preterm Birth Disparities Award, which will provide funding to enhance existing research within underserved communities, or to develop promising interventions for the elimination of birth outcome disparities within these communities. The Foundation is deeply grateful to Hologic for this grant, which will help tremendously to address this important issue.

The Foundation's Corporate Council program continues to grow, with over twenty active members in 2022, including five at the Corporate Council Premier level. These memberships enable us to continue to fulfill the Foundation's mission through unrestricted support. Many of our Corporate Council members also support the SMFM Annual Meeting through sponsorship and the exhibit hall as well, and it is wonderful to see our industry partnerships remain strong.

On behalf of our Board of Directors, please accept our gratitude to each of you for your investment in the future of maternal-fetal medicine. Together, we will continue to create and support programs for practicing MFMs, fellows and residents as we pursue our mission "to advance care in pregnancy through research and education."

With gratitude and respect,

A handwritten signature in black ink, appearing to read "Brian Mercer".

Brian Mercer, MD
Chair, Board of Directors

Awardees Selected in 2022

The Foundation has been launching, expanding, and changing the careers of MFMs since the first research scholarship was awarded by the Society's Scholarly Activities Committee in 1992, and the Foundation was created as a separate non-profit in 2003. In 2022, 20 awardees received funding from the Foundation at various stages of their training.

BRIDGE FUNDING AWARD

The Foundation introduced a one-year bridge grant in 2015, made possible with generous support from the American Board of Obstetrics and Gynecology Educational Foundation, to stabilize the research program of a promising physician-scientist seeking independent research funding.

Mark Clapp, MD, MPH

Jessica Morgan, MD

Natalie Neff, MD

Rachel Ruderman,
MD, MPH

DANIELLE PERESS, MD MEMORIAL FUND AWARD

The Danielle Peress, MD Memorial Fund was established in 2018 in memory of Dani Peress to support MFM fellows in their clinical or translational research endeavors.

"I am beyond thankful to have been a recipient of the **Danielle Peress, MD Memorial Fund**.

The award helped me gain invaluable experience in intrapartum RCT design/implementation. Using this pilot data, I am now positioned to apply for NIH-level funding, which will hopefully support my early career as a physician-scientist. I can't thank the Foundation enough for supporting this award."

DR. BROCK POLNASZEK, 2022 RECIPIENT

FOUNDATION FOR SMFM/AAOGF SCHOLAR

Our three-year research training grant is designed for future academic physician leaders seeking additional science training to pave the way to a productive career as a physician-scientist. Training may be laboratory-based or clinical, focusing on basic or translational research, disease pathobiology, diagnostics, therapeutics, or prevention. Our scholars interact with established mentors nationwide.

**Melissa Wong,
MD, MHS**

"The Foundation has played a critical role in launching my career as a perinatal translational physician-scientist through their generous support over the last several years. The **FSMFM/AAOGF Scholarship** has provided exceptional mentorship and essential funding during my transition to scientific independence. I am grateful for the opportunity to pursue this impactful research and look forward to mentoring future generations of aspiring scientists."

DR. KRISTIN GERSON, 2020-2023 RECIPIENT

2019-2023 Scholars and the 2023 Bridge Fund Awardee.

CeCe Cheng, MD

Felicia LeMoine, MD

Lihong Mo, MD, PhD

GARITE MINI-SABBATICAL GRANTS

Since 2008, practicing MFMs and MFM fellows, including international members of SMFM, have received funding for an eight-week research project or clinical experience with a mentor at another institution.

"The Foundation's **Garite Mini-Sabbatical Grant** has highlighted the importance of being trained in family planning and abortion-related procedures as an MFM ... and how variable practices can be. I am very thankful to have learned from providers who have practiced in this sphere for much longer than I have. And I hope to continue to use these skills to advance my practice as an MFM and to pursue further collaboration between our two fields in providing abortion procedures, education, and research in the future."

DR. CECE CHENG, 2022 RECIPIENT

QUEENAN GLOBAL HEALTH AWARDS

Since 2015, the Queenan Global Health Awards have offered opportunities for research and education to future leaders in perinatal health to provide sustained advancement in obstetric practice in underserved areas around the globe.

Seema Chopra, MBBS, MD

Yaneve Fonge, MD

Lilly Liu, MD, MPH

Anju Ranjit, MD, MPH

"The Foundation's **Queenan Global Health Award** [allowed me] to continue my collaboration with the team in Uganda and demonstrate the feasibility of conducting evidence-based interventions such as umbilical and middle cerebral artery dopplers for surveillance of fetal growth restriction in malaria-endemic areas."

DR. ANJU RANJIT, 2022 RECIPIENT

RESIDENT SCHOLARS

This program provides mentoring and educational opportunities during the final two years of Ob/Gyn residency, including funded attendance at SMFM Annual Meetings and a weekend biostatistics course.

Ally Gallagher, MD

Priyanka Gaur,
MD, MPH

Eniola Ibirogba,
MBBS

Lauren Murphy, MD

Natalie Poliektov,
DO, MS

Adam Schettler, MD

Jecca Steinberg,
MD, MSc

Megan Stevenson, MD

"I am grateful for the Foundation's **Resident Scholars** program because of all the doors it has opened for me, the giants in the field of MFM that I have met, and the lifelong friendships I made with my fellow Scholars."

DR. ZEINAB KASSEM, 2022 RECIPIENT

Donna Johnson, MD

STEVEN GABBE AWARD

Given annually for outstanding contributions to the Foundation

2022 Donna Johnson, MD

2021 Mary D'Alton, MD

2020 Yoel Sadovsky, MD

Literature Alert Series

The Literature Alert Series is distributed monthly by email to all SMFM members who make a minimum annual contribution of \$100 to the Foundation, as well as to MFM fellows who participate in the Fellows Class Gift Campaign. It highlights recently published articles of interest to maternal-fetal medicine specialists from more than 25 journals, and each issue contains 10-15 of the most important articles for MFMs from obstetric and non-obstetric journals.

Blair Wylie, MD, MPH

Support the Foundation

Advances in the care of high-risk pregnancies are made possible by individuals who believe in research and education. Supporting talented maternal-fetal medicine (MFM) physicians through the formative stages of their careers will expand research in pregnancy and will benefit patients and the subspecialty. You can support research and education in MFM by making a gift to the Foundation for SMFM.

DONATE

There are several ways to give:

- Make an immediate impact toward the Foundation's mission by donating online today. Visit FoundationForSMFM.org/donate.
- Mail a check. Send it to us at Foundation for SMFM, P.O. Box 420016, Washington, DC 20042-0016.
- Contribute other assets through the sale of appreciated securities or by recommending a grant from your donor-advised fund.
- Create a future gift to the Foundation through estate planning which can offer you additional tax benefits. Consider including the Foundation in your will or trust or naming the Foundation as a beneficiary of retirement plan assets or a life insurance policy.

The Foundation for SMFM is a 501(c)(3) nonprofit organization. Visit FoundationForSMFM.org/donate or contact Foundation staff at 202-517-7068 or foundation@smfm.org for more information about ways to give.
